With rapid technological progress running headlong into dramatic climate change and widening inequality, most experts agree the coming decade will be tumultuous. But a new report predicts it could actually make or break civilization as we know it. The idea that humanity is facing a major shake-up this century is not new. The Fourth Industrial Revolution being brought about by technologies like ...

### **New Report Predicts Tech Could Fuel an Age of Freedom—or ...**

The Industrial Revolution, now also known as the First Industrial Revolution, was the transition to new manufacturing processes in Europe and the United States, in the period from about 1760 to sometime between 1820 and 1840. This transition included going from hand production methods to machines, new chemical manufacturing and iron production processes, the increasing use of steam power and ...

That worked well enough in the boom economy of the early Industrial Revolution. But England had out-of-work laborers on her hands after the Napoleonic Wars. She could hardly let convicts take jobs, no matter how menial, away from citizens. Then Sir William Cubitt, a noted 19th-century civil engineer, offered a solution. He designed a treadmill for English prisons. It's aim was to generate ...

The Young Men's Christian Association (YMCA) was founded in London, England, on June 6, 1844, in response to unhealthy social conditions arising in the big cities at the

end of the Industrial Revolution. Growth of the railroads and centralization of commerce and industry brought many rural young men who needed jobs into cities like London. They worked 10 to 12 hours a day, six days a week ...
