Soldering Station Instruction S

Soldering station build instructions. Find the complete BOM here. This interactive BOM will help you solder the components. PCB build. Start soldering the smaller and continue with the bigger components. Start with the resistors and the ceramic capacitors. You can find the resistors value for each component in the BOM above. Solder the NPN transistors, the header pins, the buzzer, the terminal ...

Soldering station build instructions | HackerMagnēt

Most soldering stations have interchangeable tips (which are also replaceable, but by avoiding overheating, the station's temperature control minimizes corrosion). The tip should be broad enough to cover the width of the joint, but no wider to avoid heating the wrong thing. A small round tip will do well for general use. Assemble and secure it onto the iron (handheld assembly). 3. Select a ...
