About the Job

Job Description:

The Infrastructure System & Technology Advancement Analyst reports to the IT Operations Manager of the United Launch Alliance. Additionally, the Infrastructure System & Technology Advancement Analyst is responsible to the IT architects, Services Integrator, and other technology sector leads for gathering of expectations, tracking of commitments, and progress reporting.

The responsibility of this position includes:

Perfect Product Delivery Requirements Management: develop, maintain, and execute against a list of current and out-year ULA information technology problems and opportunities with potential to improve the delivery of IT products and services. Develop and document the problem or opportunity statement to clearly describe the problem or opportunity being addressed. Support existing infrastructure and technology and manage risk. Identify and access opportunities for IT innovation specific to Launch-Production.

Develop Options & Recommendation: Collaborating with the appropriate organizations to develop options for each problem and opportunity for review with IT leaders. The options and recommendations include advantages and disadvantages with respect to the original problem/opportunity statement. The options and recommendation include financial and technical analysis. Options and/or recommendations will be validated by prototyping where appropriate.

Business Case & Integration: Working with IT leaders develops a business case for all approved recommendations through the ULA IT demand management process.

Project Planning & Implementation: Following the IT project methodology, ensure
