Steel Grades Octg Tenaris

Improved collapse grades are developed on the basis of API steel grades with enhanced collapse performance. They are available in minimum yield strength of 110 and 125 ksi. In order to enhance the performance in internal yield pressure, these grades can be manufactured with controlled yield strength (ICY grades).

Steel Grades - Tenaris

Steel Grades We offer a broad range of proprietary steel grades to meet the most demanding well requirements, from severe sour environments to high external pressure conditions in deep wells. In addition, leveraging on our global industrial infrastructure and R&D capabilities, we work with operators to develop customized tubular solutions.

OCTG - Tenaris

Tenaris provides a complete range of proprietary steel grades for all kinds of oil and gas operations. We produce steel grades with performance properties that surpass those indicated by the API. We also manufacture API grades for general applications, including all the additional Supplementary Requirements (SR) and/or Product Specification Levels (PSLs).
