## [Symbiosis Biology 106 Lab](#)

### **Symbiosis Biology 106 Lab**

Biology 106 - Microbiology with Lab - Spring 2019 This lab activity requires students to identify symbiotic relationships. Lab groups receive a set of symbiotic cards (included in the document). On the card is the name of an organism and some clues about a symbiotic relationship it has with another organism.

Symbiosis Definition. A symbiosis is an evolved interaction or close living relationship between organisms from different species, usually with benefits to one or both of the individuals involved. Symbioses may be 'obligate', in which case the relationship between the two species is so interdependent, that each of the organisms is unable to survive without the other, or 'facultative ...
