I'm using the Tenenbaum and Pollard text, but occasionally run into things I can't figure

out. Since it's been almost 20 years since my last math class, I can't always tell if the problem is my not understanding the new topic, or just a failure in doing calculus (or even algebra). In this case, it's problem 6 in the exercises at the end of section 6, separable equations. The problem asks to ...
