The Cultural Animal Baumeister Roy

Baumeister writes that his "initial project was to provide a summary and overview of human nature, based on current lab findings in social psychology." After a year of hard work, he finished a draft of the book, and realized that it had no central theme, but rather was a compendium of scattered observations and partial, unintegrated, insights. Of course this is not surprising because the field of social psychology is just that--a bunch of unintegrated insights drawn together by insufferable ...

Roy Baumeister is a social psychologist who explores how we think about the self, and why we feel and act the way we do.

The Cultural Animal: Human Nature ... - Roy Baumeister

Baumeister's first chapter, by contrast, is a gentle, insightful, and nicely written introduction to the theory of cultural evolution and gene-culture coevolution, although the author appears not to have read some of the important contributions to the field (where are E. O. Wilson, Marcus Feldman, Luca Cavalli-Sforza, Robin Dunbar, and William Durham, among others). Similarly, Baumeister does not refer to the extremely important literature on niche construction, of which gene ...

The Cultural Animal Human Nature, Meaning, and Social Life Roy F. Baumeister. This book provides a coherent explanation of human nature, which is to say how people think, act, and feel, what they want, and how they interact with each other. The central idea is that the human psyche was designed by evolution to `nable people to create and sustain culture.

The Cultural Animal - Roy F. Baumeister - Oxford ...

Turning conventional wisdom on its head, the author argues that culture shaped human evolution. Contrary to theories that depict the individual's relation to society as one of victimization, endless malleability, or just a square peg in a round hole, he proposes that the individual human being is designed by nature to be part of society.

Cultural Animal: How We Find Meaning in Life. I am currently interested in five different research topics: (1) Self-control, choice, decision making. We have investigated how people regulate their emotions, resist temptation, break bad habits, and perform up to their potential -- and why they often fail to do so. Related work shows how stressful and draining it can be to make choices. (2) The ...
