The Logic Of Strategy

The Logic of Strategy Edited by Cristina Bicchieri, Richard Jeffrey, and Brian Skyrms

The Logic of Strategy - Cristina Bicchieri; Richard ...

Strategy is made of such seemingly self-contradictory propositions, Edward Luttwak shows—they exemplify the paradoxical logic that pervades the entire realm of conflict. In this widely acclaimed work, now revised and expanded, Luttwak unveils the peculiar logic of strategy level by level, from grand strategy down to combat tactics.

The Logic of Strategy: Bicchieri, Cristina, Jeffrey ...

The logic of strategy is paradoxical because one works against an opponent, and the best way is often not the best anymore because the best approach is expected and then countered. Instead, the un-counterered, un-foreseen second, third or fourth best approach suddenly becomes the new best one.

The Rise of China vs. The Logic of Strategy is a sober book. Staying with the evidence, it avoids flights of fancy but grips readers' attention all the way through. Here, finally, is an expert on China who knows what he's talking about. (Caleb Nelson World 2012-11-03) Luttwak's contribution to the China debate is to be welcomed. We need informed outsiders to weigh in with their views, and he has spent years visiting the country and talking to the Chinese, including the People's Liberation ...

Applying the logic of strategy for which he is well known, Luttwak argues that the most populous nation on Earth—and its second largest economy—may be headed for a fall. For any country whose rising strength cannot go unnoticed, the universal logic of strategy allows only military or economic growth.

The Rise of China vs. the Logic of Strategy — Edward N ...

A good book packed with some great insights. Nevertheless, the whole "logic of strategy" felt like a simplified version of traditional realism. The author believes, rightly

so, that the international system is conservative and will impose some restrictions on China's rise, but the theory backing the message is not very sophisticated or comprehensive. To sum up, it is a good book but you can spend your time with better ones, like "china goes global" .

The Origin of Strategy - Harvard Business Review

He starts his book with the observation that strategy follows its own logic, an often counter-intuitive and, what he calls, paradoxical logic of strategy. The logic of strategy is paradoxical because one works against an opponent, and the best way is often not the best anymore because the best approach is expected and then countered. Instead, the un-counterered, un-foreseen second, third or fourth best approach suddenly becomes the new best one. A historical example is the march of ...

NPE, the "Logic of Strategy" and X-Wing - X-Wing Analytica

'the paradoxical logic of strategy' exists apart from the actors in a conflict, and time is a dynamic element in the working out of strategy. 'In other words, if the passage of time is relevant and the paradoxical logic of strategy assumes a dynamic form, it becomes the coming together, even the reversal, of opposites.

The Rise of China vs. the Logic of Strategy with Edward Luttwak (Conversations with History)

For any country whose rising strength cannot go unnoticed, the universal logic of strategy allows only military or economic growth. But China is pursuing both goals simultaneously. Its military buildup and assertive foreign policy have already stirred up resistance among its neighbors, just three of whom—India, Japan, and Vietnam—together outnumber China in population and wealth. Unless China's leaders check their own ambitions, a host of countries, which are already forming tacit military ...
