Solo wargaming is actually quite liberating. You have complete freedom to chose whatever period, scale or rules to play, and if like me, you like tinkering introducing

The solo campaign game allows you to immerse, dabble, cogitate, extrapolate, and enthuse massively about your chosen subject in ways very few group participation game sessions will allow (rpg being the exception of course). While the book covers the running of a wargame campaign very well, I felt that it dealt only very superficially with the thing that's unique about Solo Wargaming, namely the lack of an opponent. Running a campaign is something that's probably more attractive to solo wargamers; it introduces a degree of uncertainty that they need without an opponent to provide it, and they have the time to spend, say, the odd spare half hour on the minutiae of campaigning. Solo Wargaming - To the Strongest! Regular readers will be aware that I have been playing more solo games recently and its a trend that will likely continue. I'm still attending games at Posties Shed-o-War but I only average about one game a month, especially during the summer when other events and holidays reduce availability to join the lads for a battle.
